# Dual Streaming

Intersection  
computation

# Dual Streaming

# Contributions

- First fully streamed formulation of ray tracing
  - scene, ray streams
  - predictive memory access
  - new traversal order
  - scene traffic at absolute minimum
- Hardware architecture

# Predictive Traversal Order

# Predictive Traversal Order

Scene Segments

# Predictive Traversal Order

Scene Segments

Ray Queue per Segment

# Predictive Traversal Order

# Predictive Traversal Order

Rays can be duplicated  
No traversal stack stored

# Future Work

- Early ray termination

# Future Work

- Early ray termination
- Dynamic traversal order

# Future Work

- Early ray termination
- Dynamic traversal order
- Treelet assignment

# Future Work

- Early ray termination
- Dynamic traversal order
- Treelet assignment
- Data compression

# Conclusion

- First fully streamed formulation of ray tracing
  - scene, ray streams
  - predictive memory access
  - new traversal order
  - scene traffic at absolute minimum
- Hardware architecture
